Metal Monoplane Breaks All Records For Longest Flight

26 HOURS UP IN AIR SHATTERS OLD MARK

(By Associated Press)
MINNEAPOLIS, N. Y., Dec. 30.—A large monoplane piloted by Edward Stinson, which this morning broke the world's continuous flying record of 24 hours, 19 minutes, 7 seconds, opened shortly after 11:45 a. m., after being in the air 26 hours, 19 minutes, 35 seconds.

Stinson was forced to descend because of a faulty oil connection with which he and his mechanic had battled since 3 o'clock this morning. He still had gas enough to have flown until sundown.

TRUSTEES OF PUBLISHING HOUSE OUSTED

(By Associated Press)
BOSTON, Dec. 30.—The board of directors of the First Church of Christ, Scientist, announced the removal of the board of trustees of the Christian Science Publishing Society today. The trustees at the same time insisted they will still hold office and that the fact that their resignations have been offered to the supreme court placed the jurisdiction solely in the court's hands.

OHIO TOWN TO HAVE A BREATH INSPECTOR

(By Associated Press)
YOUNGSTOWN, Ohio, Dec. 30.—Notice of a "breath inspector" to be appointed for the police force, which was inserted in the police roll call here yesterday as a joke, was hailed as a good idea by Mayor Elmer George L. Oles, who said today he would put it into force when he assumes office in January.

FIVE BIG MILLS HANDLED TOTAL OF 340,923.8 TONS ORE DURING YEAR DESPITE LABOR TROUBLES

The production for the Tonopah district for the 12 months ending December 31, with the last half of December being estimated, totals \$5,641,371. Had not the Tonopah Belmont, Tonopah Extension, Tonopah Mining and MacNamara mills been forced into idleness as a result of the walkout of miners and millmen, which occurred on April 16, and which lasted for a period of four months, the production would have amounted to \$7,021,493, providing the same ratio of tonnage and values had been maintained during that period.

In addition to the report furnished this paper by the Tonopah Mining, Tonopah Belmont, Tonopah Extension, West End and MacNamara mining companies, it is estimated that shipments from Tonopah and the surrounding districts amounted to fully \$100,000, which would make the grand total production \$5,741,371.

A total of 340,923.8 tons of ore was handled at the five mills, as follows: Tonopah Belmont, 124,303.8 tons; West End, 75,000 tons; Tonopah Extension, 78,325 tons; Tonopah Mining, 50,000 tons; MacNamara, 13,395 tons.

Of the five big companies operating in Tonopah, the West

End was the only one that continued operations during the period of the strike. Accordingly no deduction was made regarding that company in computing figures touching upon what the output would have been had not labor differences arisen covering a period of four months.

A resume of mining and milling operations in southern Nevada during the year just drawing to a close seems to be most opportune at this time. While we struggled through four months of turmoil as a result of labor controversies, dating from April 16 until September 1, it is nevertheless a fact that the activity which manifested itself at all times proceeding and following those difficult periods is a material way the setback that was suffered in Tonopah and the adjoining districts.

While the walkout of miners brought stagnation to our great industry during this period of four and a half months of practically no production of bullion, the public has had increased confidence instilled regarding the ability of investment in southern Nevada in general and Tonopah in particular, and the fact stands eloquently forth that we are now entering upon an era of prosperity that promises to be of long duration.

Has Big Future.

Tonopah, as well as all surrounding

districts, have not yet reached the zenith of their usefulness as money-producing sections. This has been strongly evidenced during the past 12 months as a result of the splendid production that has been made from the higher mines of the district, as well as from the numerous discoveries that have been made in new and old sections which are showing signs of renewed life.

Developments at Tonopah and District have been most pleasing, and the production has been in keeping with that of former years, despite the difficulties that it was found necessary to overcome. Our people, including operating companies, investors, millmen, taxmen and business and professional men, again seem to be working in perfect accord, and unless some unforeseen difficulties present themselves, the coming year will witness the greatest activities that were ever credited to any mining region in the west.

The influx of Tonopah, or a majority of them, are showing enormous reserves of commercial ore, and the production will unquestionably be greatly augmented from time to time. Deep mining is playing a most important role in this district, and especially so far as it applies to Tonopah and the Verde Wonderlands, significant finds have been made in foot level in the Victor

BROTHER OF QUEEN MARY SUGGESTED

(By Associated Press)
LONDON, Dec. 30.—Discussion of candidates for the governor generalship of the Irish free state under the pending Anglo-Irish treaty is being revived, the latest name mentioned in connection with the post being the earl of Athlone, younger brother of Queen Mary. The earl was in line for the governor generalship of Canada, and would have succeeded the duke of Connaught in that office in 1914 but for the outbreak of the war.

OKLAHOMA BANKER MYSTERIOUSLY SHOT

(By Associated Press)
MUSTANG, Okla., Dec. 30.—Several automobiles full of armed men are searching for the slayer of E. W. Hendrix, president of the Mustang State bank, who late last night was called from his home into the yard and shot to death by a man.

MILLIONS FOR RUSS RELIEF IS ASSURED

(By Associated Press)
LONDON, Dec. 30.—The agreement negotiated here last week whereby Soviet Russia will turn over to the American relief administration \$10,000,000 worth of gold for the purchase of grain in the United States for famine relief in the Volga region, was signed here today by Walter Lyman Brown on behalf of the relief administration and Leonid Krasny, for the Russian soviet government.

SILVERPAH PROPERTY WILL BE DEVELOPED WITH 300-FT. SHAFT

The fastest work in mine development during the year just drawing to a close, so far as it applies to placing a property on the shipping list, can unquestionably be attributed to R. B. H. Morrill of Los Angeles, who closed a deal recently for the taking over of the famous old Silverpah mine on the southeast slope of Lone mountain, and located 24 miles southwest of Tonopah.

The transfer of the property to Mr. Morrill, who has in process of organization what will be known as the Morrill Silver Mining company, was made on December 13, and on the following day work was instituted with a force of three men, which was later increased to five men. One of the clauses of the contract calls for the sinking of a 300-foot shaft, work to start within four months, but by reason of the new discovery that has just been made it was stated this morning that work would be instituted immediately on the shaft.

One of the most complete camps to be found in any outside district has been established, and work at the bottom of a 58-foot shaft has been started. Drifting north and south has been started from this level, and a vein of ore having a width of 4.4 feet has been exposed which carries values of \$53.70 a ton. The first shipment of 50 tons will be sent out next Wednesday to the MacNamara mill, and a tentative contract has been entered into with the mill management for the furnishing of a heavy tonnage of ore in the future. Mr. Morrill is now negotiating with truckers for the delivery of the product of the mine to the mill.

The Silverpah property was owned

by Roger "Ome" Dougherty and John F. Martin, well-known mining men of Tonopah. Mr. Dougherty located the group of claims 19 years ago and succeeded in shipping ore to the value of \$50,000. The property was originally worked in the early 70s and the original owners made heavy shipments of high-grade ore to a custom mill at the old camp of Belmont, and a handsome earning is said to have resulted despite the war and heavy treatment charges.

The 58-foot shaft, which ore is now being mined for shipment to the MacNamara mill, was the discovery shaft started 19 years ago by Mr. Dougherty. In shooting into the hanging-wall of the vein, on Wednesday of this week a new and distinct orebody was encountered, and it is from this working that the first shipment will be made.

Mining men familiar with the mineral district in question agree that it has all the earmarks of developing into one of the big silver camps of the west. While the holdings lie on the southeast slope of Lone mountain, they can be better located when it is stated that they are located four miles south of Parrel springs, and within almost throwing distance of the Weepah district which has been gaining in popularity rapidly during the past few months.

The Lone mountain section has

DANGER SEEN IN ATTITUDE OF FRENCHMEN

(By Associated Press)
LONDON, Dec. 30.—Efforts at the Washington conference to curb the use of the submarine as a weapon and France's claim for a large increase fleet received much attention in the newspapers. The majority of the editorial writers assail the

DEFENSE IN BURCH TRIAL RESTS CASE

(By Associated Press)
LOS ANGELES, Cal., Dec. 30.—Defense attorneys in the trial of Arthur C. Burch for the alleged murder of J. Helton Kennedy announced at 12:15 p. m. today that they rested their case with the understanding that they be permitted to call witnesses out of order to testify to specific circumstances, who were not then in court.

REPORT FILED BY COMMITTEE ON AVIATION

(By Associated Press)
WASHINGTON, D. C., Dec. 30.—The arms conference committee on aviation has filed a final report, and according to authoritative information, considers its duties completed as far as this conference is concerned. The report is understood to have recommended that the conference attempt no limitation of air plane construction, since any curtailment would necessarily affect legitimate progress in aeronautics for commercial purposes, but to have voiced a decided opinion as to regulation of airplanes for use during military and naval operations.

FAILURE OF BIG N. Y. FIRM IS ANNOUNCED

(By Associated Press)
NEW YORK, Dec. 30.—Failure of the firm of E. W. Wagner & Co. of New York was announced today from the stock exchange of the New York stock exchange.

(By Associated Press)
CHICAGO, Dec. 30.—President Wagner issued a statement here announcing the New York stock exchange. He said it had promised to take no action until after 2:30 o'clock this afternoon but failed to keep its promise. The company, he said, was long on stocks which were being closed out.

WEEK-END RATE CUT APPROVED FOR COAST

(By Associated Press)
SAN FRANCISCO, Cal., Dec. 30.—United States railroad rates on the Sacramento-San Francisco rail road, effective January 6, were today approved by the railroad commission.

REFINED SUGAR GOES TO LOWER FIGURE

(By Associated Press)
SAN FRANCISCO, Cal., Dec. 30.—Refined cane sugar was quoted today at \$5.20 per hundredweight at the refineries, a decrease of 10 cents per hundredweight from yesterday's quotation.

LEADERS IN EGYPT SAIL FOR CEYLON

CAIRO, Egypt, Dec. 30.—It is said that Zogolou Pasha, Nationalist leader, and five followers, who were arrested at Cairo last Friday, have sailed from Suez for Ceylon.

WILLING TO DISCUSS THE SUB QUESTION

(By Associated Press)
PARIS, Dec. 30.—The French government will be glad to discuss the status of submarines with reference to permanent shipping as well as the humanitarian bearing of their use, it was said today in official circles. Regulation of the use of these craft, it was added, might affect the question of tonnage, but the question of status must come first.

LIVING COSTS INVESTIGATION PROGRESSING

(By Associated Press)
WASHINGTON, D. C., Dec. 30.—Federal investigation of retail prices of necessities in all parts of the country is rapidly reaching completion, it was said at the department of justice today. Department agents assigned to duty by Director Burns of the bureau of investigation, it was said, have been gathering price information in all large cities and smaller communities and country districts as well, and it was believed the whole country will be covered in another week.

DEAD BANK ROBBER NOT YET IDENTIFIED

(By Associated Press)
STOCKTON, Cal., Dec. 30.—Deputy Sheriff Jess Wheatley, who was seriously wounded yesterday afternoon in a gun battle with a Lockford

Due to the occurrence of the Christmas holidays, the amount of work accomplished at the property of the Tonopah Mining company during the week ending December 26 was short of the usual average. Tonopah development work amounting to 221 feet was accomplished in the seven-day period and a total of 1101 tons of ore was cased from the three shafts of the old operating company.

Conditions about both the mine and mill are reported thoroughly satisfactory, and the company states the rest with the knowledge that it has done much for the furtherance of the vital industry of Tonopah and the state as well. The prosperity of the entire camp is reflected in the accomplishments of Tonopah Mining, and with favorable conditions continuing throughout 1922, it is as sure that this well-known property will take its place as one of the premier silver producers not only of Nevada, but of the entire nation.

The official weekly report of company operations for the seven-day period ending December 26, as given out by the management, follows:

Silver Top Shaft.
Drift 125 west is drifting on a high-grade stratum. Drift 237 east showed no change. Raise 264, no change. Drift 5026 intermediate is continuing in low-grade values. Development 88 feet. Tonnage 350.

Mizpah Shaft.
Raise 261 has holed into old stopes and some ore is being extracted from the hanging-wall of the old stopes. Drift 379 has been discontinued. Raise 371 made the usual progress with no change to report. No change to report in drift 613. Development 85 feet. Tonnage 450.

Sand Grass Shaft.
Raise 1020 is being run toward stopes 1010 on low-grade quartz. Raise 1021 is being driven on the vein on about 2 feet of mill ore. Raise 1022 has no change to report. Development 48 feet. Tonnage 300.

bank robber, was reported this morning as not yet out of danger. The San Joaquin county sheriff's office states that the dead bandit, killed by Wheatley, has not yet been identified.

TROOPS USED IN QUELLING MEXICAN RIOT

(By Associated Press)
MEXICO CITY, Mexico, Dec. 30.—The Mexican chamber of commerce was invaded by armed troops for the first time in its history when a mob broke in to seize the building. The chamber of commerce is a building with the famous mural paintings by the famous mural painter, Diego Rivera. The chamber of commerce is a building with the famous mural paintings by the famous mural painter, Diego Rivera. The chamber of commerce is a building with the famous mural paintings by the famous mural painter, Diego Rivera.
